

1

FIND A BAG THAT CAN STAND UP ON ITS OWN

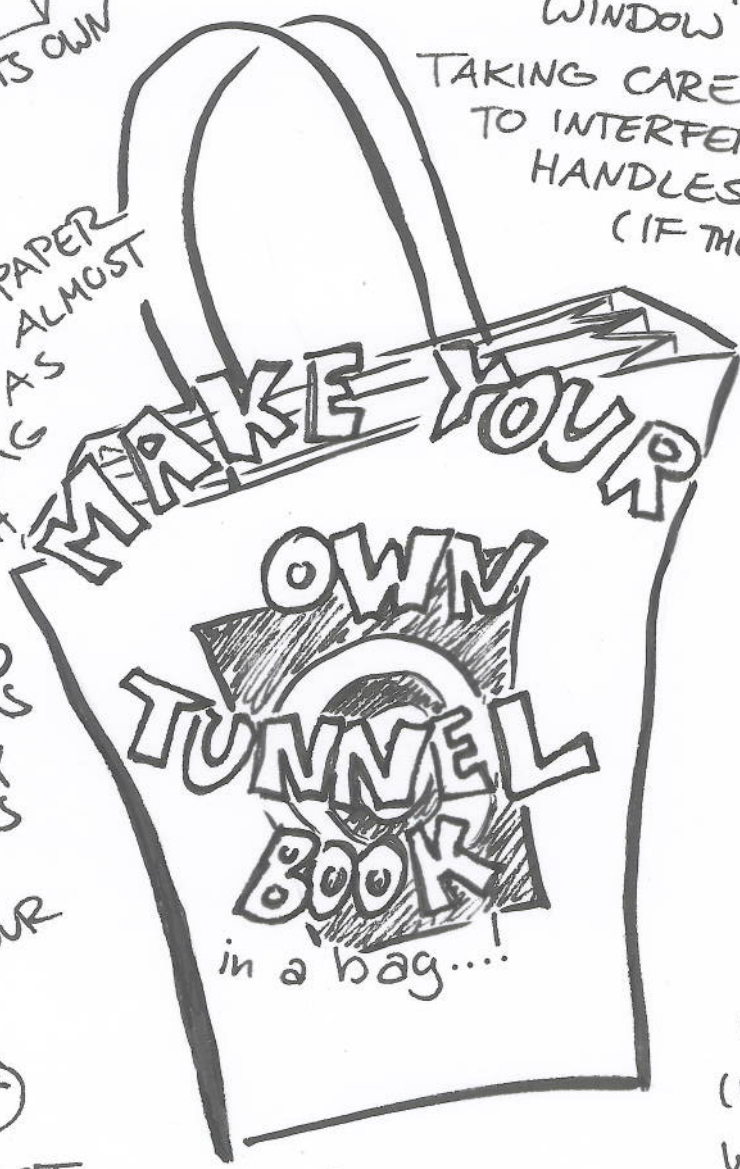

2

FIGURE OUT HOW BIG THE WINDOW CAN BE TAKING CARE NOT TO INTERFERE WITH HOW THE HANDLES ARE ATTACHED (IF THERE ARE HANDLES). THERE NEEDS TO BE ENOUGH OF A BORDER ON ALL SIDES TO STILL LET THE BAG STAND ON ITS OWN.

4

USING FIRM PAPER OR CARD AS WIDE AS YOUR BAG IS HIGH

3

CUT THE WINDOW BEING CAREFUL NOT TO CUT THROUGH THE OPPOSITE SIDE (UNLESS YOU WANT A WINDOW IN BOTH SIDES).

Score & fold two concertinas with as many valley folds as you want layers in your book

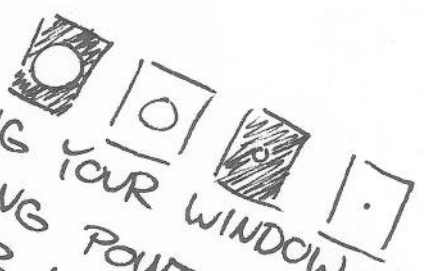

5

SLOT CONCERTINAS INTO THE SIDES OF THE BAG

6

USING YOUR WINDOW AS A STARTING POINT, DESIGN & CUT YOUR LAYERS ON PAPER ALMOST AS BIG AS THE BAG.

7

SLOT LAYERS INTO VALLEYFOLDS TO BUILD UP THE LAYERS IN YOUR TUNNEL BOOK.
